Advancing kidney health worldwide. Together.

ABOUT US

We are a philanthropic organization advancing kidney health worldwide.

Our overarching purpose is to tackle the global burden of acute kidney injury, chronic kidney disease and end-stage kidney disease.

We build capacity with healthcare professionals via granting programs, education and research.

We bridge gaps in global kidney care, engaging in a collaborative effort with global partners to improve kidney disease prevention, diagnosis and treatment.

By connecting communities, we develop a stronger understanding of how to manage kidney disease.

FIVE REASONS TO JOIN

1. Receive our three journals: Kidney International (KI), KI Supplements and KI Reports (online access)
2. Be part of our educational programs to build more nephrology capacity and boost your career
3. Get unrestricted access to the ISN Academy, our online nephrology e-learning platform
4. Benefit from reduced rates to our World Congress of Nephrology (WCN) and ISN Frontiers meetings
5. Connect with ISN members worldwide to deliver more capacity-building programs and create more equitable access to nephrology care.

Join us at our events, visit theisn.org/events
With thousands of professional members in 150+ countries, the International Society of Nephrology reaches out to tens of thousands nephrology-related professionals through partnerships with our affiliated societies.

We represent a wide international network and an efficient platform for timely scientific exchange, debate and communication between healthcare professionals involved in preventing and treating kidney disease.
