# INTRODUCTION

This 2-day symposium focuses on the unique aspect of kidney disease in the tropics, the region with a high prevalence of kidney diseases and distinction for its heterogenicity. Main topics will include kidney diseases that have worldwide distribution and those that are secondary to factors unique to the tropics, e.g. climatic conditions, infectious agents, nephrotoxic plants, envenomations, and chemical toxins. The symposium also highlights the knowledge of kidney diseases and issues that are important for medical professionals in developing world, including innovative and cost-effective prevention, early treatment strategies, along with integrated and interprofessional care. There are 4 themes related:

**I: Changing Paradigms of Tropical Kidney Diseases**

**II: Acute Kidney Injury in the Tropics**

**IV: Integrated Care of CKD and KF in Developing World**

**III: Unique Aspect of Kidney Diseases in Developing World**

# VENUE

# TRAVEL TO PATTAYA

Pattaya is one of the most popular resort beach cities in Thailand, often visited by both locals and tourists. It is about 93 miles from Bangkok. You can choose between 3 options to travel there. You can take a bus which usually takes around two and a half hours. You can choose to travel in a private car, which only takes an hour and a half. Or, you can go with a minivan, where you can choose between shared and private rides. You can get more info and booking your vehicle via our website.
