

# ECNeph (#ECNeph): A digital peer-learning model in nephrology

## OBJECTIVE

To describe the evolution, structure, implementation, and educational impact of #ECNeph as a global peer-learning model in nephrology.

## METHODS

- Monthly, hour-long threaded discussions
- Progressive case disclosure
- Differential diagnosis debates
- Management discussions

## CONTENT AREAS

AKI &  
DIAGNOSTIC  
MYSTRIES

NEPHROTIC  
SYNDROME  
DISCUSSIONS

POST  
TRASPLANT  
INFECTIONS

LUPUS  
NEPHRITIS &  
CKD

## EDUCATIONAL IMPACT

Democratized  
nephrology

Global  
collaboration

Real-time  
mentorship

Empowered  
trainees

Strengthened  
clinical reasoning

**Conclusion:** #ECNeph cases demonstrate the power of digital collaboration in nephrology. It bridges clinical expertise with social media innovation to advance inclusive, open-access kidney education worldwide.
