4. Long Cases in Nephrology (in press)

---

## Candidate's Statement

As ISN regional board leader and ISN Councillor; I wish to accomplish the following:

I will maintain close contact with the regional board members and national society leaders for improving collaboration among the national societies.

I will take care that all the nephrologists of south Asia region become members of the ISN and remain up to date.

I will try to arrange training programme for young nephrologist of south asia region in developed centers of India and other member countries if appropriate.

I will give special attention to nephrologists of countries like Afghanistan, Maldives, Nepal, Bhutan to encourage their active participation in ISN activities.

With the help of affiliated society leaders, I will try to establish collaboration in the field of research and training. I will organize workshop, webinar etc, to maintain and update renal registry in south Asia region.

I will try to publish a quarterly online newsletter and distribute it to all the members of the national societies. I will try to coordinate activities of the advocacy groups so that the policy makers in the region are better convinced to include `CKD` in their national NCD program. Which will help people in the region get equitable access to Nephrology care.
